DISTRICT DEPUTY GRAND RECORDED TO VISIT HERE

On tomorrow (Friday) evening, the
Blaimore Chapter of the Women of
Mooseheart Legion will be honored
by a visit from Legions G. M.
Walker, the district deputy grand re-
corder. She is visiting all chapters.
This is the first time that a Cana-
dian member of the legion has held
such a position.

All members are urged to make a
special effort to attend this meeting,
which will be held in the Moose hall
promptly at 7 p.m.

She will give a class of instruction
and also a lecture on the aims and
objects of the order, so that members
may have a better understanding of
the good work done at Mooseheart in
educating and training the children of
deceased members, and how the
aged are taken care of at M's haven.

Legionaire Walker will arrive Fri-
day morning and be the guest of
honor at a social to be held at 8.30
p.m., to which all Moose members and
Legionaires are cordially invited. A
special program has been arranged.

REBEKAH HEAD VISITING LODGES IN THE PASS

Mrs. William MacGregor, of Leth-
bridge, president of the Rebekah As-
sembly of Alberta, I.O.O.F., is visit-
ing lodges in this district during the
week, and tonight will officially meet
the members of Crowfoot Rebekah
lodge at a special meeting in the lo-
cal hall. A large attendance of visit-
ors and members is anticipated.

DEATH OF JAMES ROBERT DOUGALL

Word comes from Montreal of the
death of James (Jimmie) Robert
Dougall, which occurred in the St.
Anne De Bellevue hospital, following
a brief illness.

Mr. Dougall was one of the most
prominent of mining, railway and
farming citizens of the Canadian
west, where he had resided until very
recent years. He was born of Scot-
tish parents and came to Canada in
1900, entering upon a position with
the West Canadian Calleries Limited
here. In 1902, he married Miss
Alice Walker, of Georgetown, Ontar-
io, who survives him. In 1911 he be-
came manager of the Davenport Coal
Company at Burnis, and following
that time became actively interested
in ranching. In September, 1915, he
accepted a position with the Cana-
dian Pacific Railway Co., as general
agricultural agent, serving in that
capacity until March 1, 1919, when he
was transferred to Montreal in the
same capacity. He held this appoint-
ment until January of last year, when
he was appointed special representa-
tive and was a well known figure
throughout Canada.

In addition to his widow, he is
survived by four sons and two daugh-
ters, Mrs. J. E. Munson (Margaret),
of New York City, and James, Robert,
Isabel, Donald and George, all of
St. Anne De Bellevue.

The remains were laid to rest in
the Lakeview cemetery at Montreal
this afternoon.

Scientists are now breeding an
odorless skunk, that will be mighty
like a rose when completed. Folk are
warned, however, not to be in a rush,
for there are still quite a few skunks
around that haven't had any cultural
advantages.

RELIEF WORK IS UNDERTAKEN

Plans for considerable relief work
were completed here last week and
through a caucus between the Blaim-
ore town council and Mr. Bradley,
roads engineer, and Mr. J. D. Robert-
son, deputy minister of public works,
of Edmonton.

Plans decided upon involve the
elimination of two dangerous bridges

SEVENTH ANNUAL MUSICAL FESTIVAL IS BANNER SUCCESS

The seventh annual, Crew's Nest
Musical Festival came to a suc-
cessful conclusion at the Columbus
Hall last night, when prizes were
distributed to successful competitors.
The festival opened on Monday
morning, and all sessions, morning,
afternoon and night, were well at-
tended, in fact the attendance
throughout was greatly in excess of
any previous festival.

Messrs. Thomas Jenkins, M.B., and
Grigori Garbovitsky, conductor of the
Calgary symphony orchestra, were
adjudicators, and repeatedly voiced
their surprise at the amount of ex-
cellent musical talent that is contain-
ed in this district.

Space will not permit our going
into detail, but for the benefit of
those who are interested we this week
give correct figures of marks obtain-
ed:

Piano, Grade I Junior, under 10
years—Elenore A'cacher, Blaimore,
378; Audrey Sorge, Pincher Creek,
164; Mary Partington, Coleman, 135.
First and second prize medals.
Vocal, under ten years—Francoise
Brusset, Pincher Creek, 85; Nancy
Thomas, Hillcrest, 84; Helen Dicken,
Ferne, 75; Jean Patterson, Fernie,
77; Elenore Aschacher, Blaimore, 71;
George Patterson, Fernie, 67. First
and second prize medals.
Violin, Grade I Junior, under 11
years—Lawrence Fisher, Hillcrest,
170; Louisa Cridland, Pincher Creek,
163; Lees Freebairn, Pincher Creek,
149; Paraska Gushul, Blaimore, 149;
Robert Slocko, Hillcrest, 143; Freda
Instone, Hillcrest, 136; Wasy Frolak,
Hillcrest, 96. First and second prize
medals.

Violin, Grade I Senior, over 11
years—Fred Blazenko, Coleman, 161;
Stuart Tuff, Pincher Creek, 149;
Douglas Langin, Pincher Creek, 149;
Seth Halton, Pincher Creek, 136; Roy
Robinson, Pincher Creek, 126. First
and second prize medals.

Piano, Grade I Senior, over 10
years—Vera Schoening, Pincher
Creek, 184; Eddie Seaman, Hillcrest,
179; Richard Norton, Hillcrest, 177.
First and second prize medals.

Violin, Grade II Senior, over 13
years (to appear next week).

Piano, Grade II Junior, under 12
years—Rose Oliver, Blaimore, 182;
Marion Allison, Pincher Creek, 173;
Douglas Moores, Coleman, 163; Beth
Murray, Frank, 167; Mary Graham,
Coleman, 166; Conrad Schoening,
Pincher Creek, 163. First and second
prize medals.

Violin, Grade II Junior, under 13
years—Josie Evans, Hillcrest, 143;
Leonard Adlam, Hillcrest, 139; Gordon
Swart, Cowley, 138; Lorraine
Olivier, Blaimore, 137; Ronald John-
son, Blaimore, 135; Ernest Wood,
Bellevue, 132; Bill Tuff, Pincher
Creek, 130; Harry Sorge, Pincher
Creek, 129. First and second prize
medals.

Violin Quartettes, Junior—First,
Hillcrest, (Leonard Adlam, Josie
Evans, Gordon Swart, Lorraine Olivier).

(Continued on Insert Page)

in East Blaimore and diverting and
straightening of the river at that
point.

In order to carry out this work, it
was necessary to purchase several re-
sidential properties in the locality.
Buildings thereon will be removed
and when completed this will be one
of the most ideal sections of the Red
Trail.

Mr. J. Anderson, who for several
years has been foreman of road work
at various points in Southern Alberta,
is foreman in charge and undertook
the work on Tuesday.

Employment is being given to those
who can satisfy the police that they
are in need of same. The work will
probably occupy at least two months.
We understand that one of the
bridges is to be moved to a point
across the river near Sentinel.

Which Would Do Most Work?

Long Hair is like a blanket. Leave it on and your horse sweat excessively and all night this cold wet blanket of long hair chills the horse and prevents proper rest. Horses in run down condition are easy prey to colds, pneumonia and other ills.

New Stewart CLIPMASTER an electric clipper for clipping horses and cows, weighs only 3 1/2 lbs. and easily held in hand like grooming brush. Weights from light socket, has 25 ft. extension cord, special universal motor. Price, complete, only \$28.75.

Flexible Shaft Co. Limited, 349 Carlaw Ave., Toronto

Remove the long hair. Clipping gives new life to horses—they do more work on less feed—are dry at night and get proper rest. Clipped horses easily groomed. Less subject to illness, always fit for full day's work. Keep your horse on the job. **CLIP NOW.**

STEWART No. 1 Clipping Machine. Clips fast. Lasts many years. Strong, simple, built-in, easy running, stays sharp. Clips horses and cows. Price only \$18.85. If your dealer cannot supply STEWART machine, send \$2.00 to factory, pay balance on arrival. No return on money returned.

349 Carlaw Ave., Toronto

WORLD HAPPENINGS BRIEFLY TOLD

The next session of congress will probably see restriction of immigration from Canada to about 4,000 annually.

A general election in Britain before the end of the present year was predicted in an address by S. K. Radcliffe, British journalist.

The visa fee for Canadians going into China has not been increased so far, it was learned at the Chinese consulate at Ottawa.

A visit to Canada by Lord Jellicoe, as a delegate to the British Empire Service League meeting at Niagara Falls, is expected to take place in August.

Serious losses through cutworm are predicted for 1931, in Saskatchewan if average weather conditions prevail, according to a warning by the Department of Agriculture.

Preservation by Canada of early specimens of architecture was urged at a meeting of the Royal Canadian Institute by Prof. E. R. Arthur, of Toronto.

About fifteen million years ago giant snails fifteen feet high climbed around the stern cliffs of Quebec. A piece of the shell of one of these monsters of the Ordovician period has been found, imbedded in a limestone cliff on Viduett Hill.

The ban on the use of dogs in hunting deer may be brought into effect by legislation at the present session of the Ontario legislature. After several contentious sessions, the fish and game committee voted 10 to 9 in favor of continuing the use of dogs.

Official notice has been given that the Army and Navy Veterans of Canada will seek power at the present session of parliament to operate sweepstakes. The association's charter would be amended, according to a notice in a recent copy of the Canada Gazette.

Dr. Boland Hughes, of Philadelphia, explained to the Royal Society of Medicine, meeting in London, England, a new iodine compound to be used for making X-rays of the kidneys and bladder. The new compound is expected to considerably advance the technique of diagnosis of diseases of those organs.

Contest Shows Girls Are Better Sleepers

And Less Grouchy in Morning Than Boys, Says Doctor

Girls are far better sleepers than men, and as a result feel more peppy and less grouchy in the morning, Dr. Laird, of Colgate University, said in an address at Ottawa.

An "intercollegiate good sleep contest" between boys of Colgate and girls at Skidmore showed that girls have less trouble going to sleep, wake up fewer times and have fewer dreams.

"If you need an alarm clock to awaken you, then you need more sleep," the slumber expert said.

Wife: "Why are you sad?"
Financier: "I've lost \$1,000, and \$5 was mine."—Buen Humor, Madrid.

W. N. U. 1894

SUNDAY SCHOOL LESSON

APRIL 12

THE PRODIGAL SON

Golden Text: "There is joy in the presence of the angels of God over one sinner that repenteth."—Luke 15, 10.

Lesson: Luke 15.
Devotional Reading: Isaiah 51:1, 2, 6-11.

Explanations and Comments

The Parable of the Prodigal Son, the Son Sinning and In Want, verses 11-16.—As we first see the prodigal son, he is a picture of supreme selfishness. He demands from his father the portion of his property that would logically be his, and upon receiving it, he betakes himself to a far country.

"Every one of us is making some demand upon life. It may be shouted from the housetops for all the world to hear, or advertised in every word and act of our life. The whole cry of some men is 'Give me, Give me!' Never mind the price. Never mind what it costs me. I want things—the love, the honor, the joy of a clean soul, the pain of others. 'Give me the portion of goods that falleth to me.'—James Reid.

How well selfishness carry on if he follows it to the end! It carries the prodigal steadily downward. In the far country the wayward boy has his reckless fling. He is a spendthrift and a reprobate—he wastes his substance with riotous living. He loses his fine feelings, his friends, his good food, his good garments, and at last he comes to a field and the company of swine. Even the hawks or pods of the carol tree given the swine are welcomed as food, for he is in sore want.

Riotous living may have for us no lure, but we may be guilty, nevertheless, of something that carries us down. It is the carrying of our passions, youth, talents, education, time, opportunity, life.

The Son Coming To Himself, verses 17-19.—Referring to Swan's great picture of the Prodigal Son in the Tate Gallery, London, England, W. L. Watkinson said: "It is a masterpiece. The prodigal son, himself, is a very melancholy figure, and as for the swine they are simply diabolical. But what struck me most of all is that the great painter had put in a few dabs of red. That is the poetic touch. In his dark cartoon Swan has painted in a few red poppies." There is a bright light in the dark picture of the prodigal—the prodigal "comes to himself."

The Return and the Father's Forgiveness, verses 20-24.—The prodigal immediately carries out his high resolve. He returns in a ragged, gaunt and unkempt vagabond. "It is often a long journey from a resolution to a realization. The journey is frequently so long that the resolve is never completed, and the resolve never becomes a reality. This is true because in so many instances the good resolution has nothing to back it up except a 'tail wind' which is weakened with time. In the will of the prodigal there was still life and power."

We can picture him as he travels the long weary stretches back to his home, rehearsing in his mind the appeal he proposes to make there. How will his father receive him? He has ventured on no ground where he can be received as a hired servant. But his father's love is far larger than his dreams. While he is a wanderer, his father sees him and is moved with compassion; he runs to meet and kiss him.

"Yet a great way off he saw me, ran to kiss me as I came; As I was my father loved me, loved me in my sin and shame."—Xcristigen.

Discounts Russian Wheat Menace

Predicts That Within Five Years There Will Be a World Clamor For Wheat

The dark shadow of Russia on the wheat marketing picture will vanish gradually.

Within five years, there will be a world clamor for Alberta wheat.

Such were two of the main points in an optimistic address, delivered by Premier J. E. Brownlee, at the annual banquet of the Alberta Association of Professional Engineers in Edmonton. At the time he was replying to the toast to "The Province of Alberta."

Declaring that Russia was at the lowest margin upon which human life survived, Mr. Brownlee said it was evident that the country would move to higher standards of living.

Saskatchewan Bronze Turkeys
W. E. Sellers, of Strathburg, Sask., who has been showing his bronze turkeys at the fall and winter poultry shows again this year, has had another successful season. At the major shows held at Winnipeg, Saskatoon, Yorkton and Moose Jaw, his wins with turkeys include 1 first, 7 seconds, 2 thirds, 4 fourths, 5 fifths, 2 silver cups, 4 specials and 3 championships.

May Enlarge Power Plant
The Saskatchewan Power Commission is considering an addition of machinery to the Saskatoon plant, to cost in the neighborhood of \$400,000. No additional buildings, however, will be required. Construction of additional transmission lines throughout the Saskatoon district necessitated the enlargement of the plant.

Spasmodic Croup Quickly Checked

Often with one application. Just rub Vicks over throat and chest.

Queer Place For Chapel

Four Bridges in England Have Church On Them

Wakfield's historic bridge over the River Calder—one of the four bridges in England to have a chantry chapel built upon it—is to be relieved of much of its traffic by the erection of a new bridge near by.

Such a bridge has long been necessary, since the present one is much too narrow to accommodate the heavy stream of traffic flowing between Leeds and Sheffield. The present bridge is to remain with its famous chapel in its historic position. The chapel has been used as a bacon factory, an old clothes shop, a library, a dairy, a corn factor's office, a jail and, since its restoration in 1842, as a church.

British Wholesale Society

May Establish Packing Plant In Western Canada

The Toronto Globe publishes the following dispatch from Ottawa:

"Representatives of the Co-Operative Wholesale Society, with headquarters at Manchester and hundreds of stores throughout England, had a conference with Hon. Robert Weir, Minister of Agriculture. It is understood the 'Co-Op.' as it is popularly known in Britain, is contemplating establishment in Canada. The visitors are also looking over the ground to see what they can purchase from the country in the way of food products.

"Their packing plant may be established in western Canada. H. S. Arkell, superintendent, and J. M. King, secretary of the Canadian Livestock Co-Operative, accompanied them."

Wear On Shoes

The U.S. Bureau of Standards in Washington, D.C., has a walking machine for testing the life of shoe soles. In 24 hours the machine gives the equivalent of several months of wear to a pair of shoes, while observers study the reaction of the leather to the severe strain of the test.

Some grades of silk have been cheaper in London recently than they have been for 100 years.

In a recent month Norway exported 18,800 tons of fish.

The milky way of the heavens is said to contain approximately 30,000 million fixed stars.

Delegation May Bring Better Trade Relations

Increased Business With Argentine May Result From Visit
The visit of the Canadian trade delegation has aroused the press of Buenos Aires to comment very favorably on the prospects of closer trade relations between the two countries.

It has even been suggested that negotiations be initiated for a mutual understanding between the Argentine and Canada on the all-important question of marketing wheat. Both countries, it is pointed out, would greatly benefit by such a move, although a basis of any such agreement has not yet been suggested.

Cordial discussions took place over a week-end between members of the Canadian delegation and representatives of the Argentine Government. Out of these discussions, it is confidently anticipated more profitable future business will result for both countries.

This Motorist Was Lucky

Train Smashed Car But Driver Escaped With Minor Injuries

Motorists who race locomotives to grade crossings seem to be blessed sometimes with an amazing good fortune. The driver of an automobile in the Southern States, recently was hit amidships by a yard engine.

His life was saved by little short of a miracle. The locomotive crushed the wheels of his automobile, the chassis of the car dropped to the railroad tracks, and the automobile and driver were pushed along the track at a good rate of speed for more than 150 feet. The driver escaped with minor cuts and bruises. He collected the spare parts of his automobile, and aided by the railroad wrecking crew managed to get his smashed motor car to a vacant lot.

Branch Line Construction

Construction Programme Of C.N.R. Is Proceeding As Authorized In 1930

All the branch lines of the Canadian National Railways authorized for construction in 1927, were completed by the end of 1930, according to a return tabled in the House of Commons by Hon. R. Manion, Minister of Railways. Last year \$222,500.97 was spent to finish the work, making a total spent on the 14 branches authorized of \$12,127,760.00. Construction is proceeding on the branch lines to which parliament gave authorization in 1930. Seventeen of these accounted for an expenditure of \$13,232,718.96 last year. For the current year the work will cost an estimated figure of \$3,750,000.

Canada's Fresh Water Area

More than half the fresh water of the globe is contained in inland waters of Canada and twenty different varieties of food fishes are obtained from them in abundance by commercial fishermen each year. Inland commercial fishing is carried on in six provinces and in the Yukon Territory.

VANISH QUICK

"My hair was covered with itching scales. One application of 'Selsblon' and it disappeared. I feel like a new man."—Mrs. C. B. Hines, Gettysburg, Pa.

BLACKHEADS

Don't suffer any longer from these unsightly blemishes. Overcome them by using Selsblon. It is a powerful skin cleanser. Sprinkle a little on the face cloth, apply with a circular motion and the blackheads will be all WASHED AWAY. Satisfaction or money returned.

Free Port Motion Defeated

Amendment To Safeguard Western Agriculture Failed By Alberta

Side-tracked in favor of an amendment proposed by George MacLachlan, U.F.A. member for Pembina, more directly concerned with "safeguarding" western agricultural interests, than with the original motion, the resolution proposed by W. R. Howson, Liberal member for Edmonton, urging that Port Churchill be made a free port of entry for British goods for bona fide consumption in Alberta, met a dreary fate in the Alberta legislature.

Mr. MacLachlan's amendment, which was substituted for another amendment proposed by Col. F. C. Jamieson, Conservative member for Edmonton, read:

"That this assembly hereby affirms its support of all efforts to encourage reciprocal trade between Great Britain and Canada and to the substantial extension of the British preference to encourage such trade;

"That pending a general substantial revision downwards of all tariff, this assembly recommends to the Dominion government that the agricultural industry of western Canada be placed on a parity with other industries of Canada either by stabilization of prices or by careful examination of the incidence of the tariff schedule in order to assure that the economic interest of the farmers of western Canada be adequately and justly safeguarded."

Unemployment Relief

Impossible For Country To Continue Present System Indefinitely

In the country going to continue indefinitely the existing wasteful and uneconomic system of relief? At present there is no reason to assume that the present system of unemployment relief will be any less. The country, the provinces and the cities cannot continue indefinitely expending millions of dollars in direct relief or in public works that are unproductive. A more business-like system will have to be devised for looking after men out of work, and the time to prepare for next winter is now. It may be some years before the problem of unemployment disappears and a more practical method of solving it will have to be evolved.—Calgary Herald.

Morocco plans to develop its coal and iron ore resources.

Make Your Windows Pay

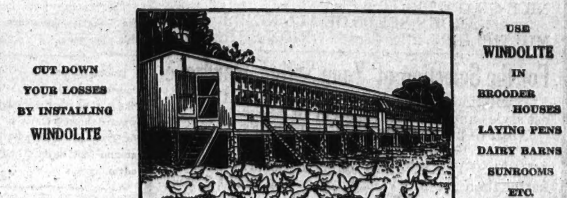

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are less leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

WHO'S WHO

Hon. Lewis Smith

A SHIPOWNER and a farmer of many years' experience, Hon. Lewis Smith, Minister of Agriculture for New Brunswick, is one of the outstanding producers of his Province. His interest in the World's Grain Exhibition and Conference, Regina, 1922, is demonstrated as chairman of the Provincial Committee of New Brunswick.

Mr. Smith was born at Lower Coverdale, Albert County, New Brunswick, fifty-one years ago. He was educated at the grammar school of Albert County and later attended the Ontario Business College at Belleville, where he received a commercial training.

For ten years he was a member of the County Council of Albert County and in 1927 was elected to the New Brunswick Legislature as representative of his native county. At each of the general elections since that time Mr. Smith has received the confidence of the electors and joined the New Brunswick Government as Minister of Agriculture in 1925.

A GOOD MOVE

Persons about to be interdicted under the Alberta Liquor Control Act must be present when such interdiction is made and then an opportunity to answer charges of drunkenness or any other allegation warranting the interdiction. Mr. Justice J. R. Boyle ruled in the supreme court at Edmonton.

IMPORTANT HOCKEY RULES

No more abusive or profane language by officials of clubs, players or coaches will be tolerated. The referee will have the right to eject persons from the game if they use such language. This will eliminate the verbal clashes that were so frequent in the boxes by coaches, time-keepers and players in the Southern Alberta senior league the past winter. —Lethbridge Herald.

NEW C.N.R. HOTEL TO OPEN THIS MONTH

The latest addition to the system hotels of the Canadian National Railways will be opened this month in Charlottetown, P.E.I., with A. H. Mould, formerly of Manki Lodge, as manager. The new structure contains 108 bedrooms, each with bath and all outside rooms and is in the Georgian type of architecture to fit in with the general scheme of architecture of Charlottetown.

The hotel is of a type which will prove popular with visitors of Prince Edward Island and should be the means of drawing large numbers of tourists to the Garden of the Gulf.

Dr. A. H. Denoon, for seven years pastor of Knox church, Lethbridge, and of late residing at Halifax, Nova Scotia, died on Monday morning last at the age of fifty-eight. Dr. Denoon was one of the best known and most highly esteemed preachers of the United Church of Canada. Besides his sorrowing wife, Dr. Denoon leaves to mourn, one daughter, Nan (Mrs. G. C. Paterson), of Lethbridge, and two sons, John and Allison. A third son, Jamie, died in 1927. Mrs. J. Hood and Mr. D. R. McKay, both of Blairmore, are cousins of the deceased.

A new sub-station is being erected in Blairmore by the East Kootenay Power Co.

TAXPAYING MADE EASY

Paying taxes is to be made easier for the property owners of Knoxville. The method devised will keep a steady flow of revenues coming into the city treasury and yet the drain on the taxpayer is to be lightened by allowing him to pay in quarterly installments.

To those who are able to pay all of their assessment in advance a discount is to be granted, but since economists estimate that from 60 to 75 per cent of taxes are paid by borrowing money, it can be expected that there will be many at Knoxville who will avail themselves of the installment option.

Tremendous wastage is involved in delayed payment of taxes. The amounts added to the tax bills themselves by penalties for not making payment within the prescribed time limit and the interest on loans runs into large sums yearly.

But it may be that the Knoxville plan does not go far enough. Why can not the tax payment be divided into twelve installments and thus be made increasingly easy? Then tax would be met in the same manner as the monthly telephone, lighting and gas bills. Perhaps banks could be designated in various parts of the city for convenience in payment.

As a start, however, the Knoxville method seems to be advantageous from many standpoints. Tax clubs have attracted considerable fervor, and savings accounts for tax purposes are also working for those who are able to save systematically, but the installment plan of meeting taxes at definite dates appears especially sound. Tax-paying made easy—that is a commendation devoutly to be wished. —Christian Science Monitor.

CANADA'S LIQUOR BILL

The reports of the Liquor Board and Commissions have been presented to their various provincial legislatures, and it is now possible to compute the expenditures for liquor in Canada for the periods covered. Some provinces close their liquor year in the spring and others in the fall. The former will parallel only about six months of depression, the latter practically a full year.

For Quebec, Manitoba, Alberta and British Columbia, the retail value of the beer sales by licensees is estimated on a conservative basis and added. The cost of permits is included. The results are as follows:

Nova Scotia (sale for 43 days only) \$ 621,587

New Brunswick (an increase) 4,899,734

Quebec (an increase) 75,700,560

Ontario (a decrease) 51,945,832

Manitoba (an increase) 10,632,392

Saskatchewan (a decrease) 12,380,672

Alberta (a decrease) 14,997,225

British Columbia (an increase) 19,532,632

Total \$193,620,674

Last year, on the same basis, the amount was \$192,968,504. If the sales in Nova Scotia, which have no parallel in last year's amount, are deducted, the bill is still up \$30,583. If any allowance is made to cover illegal sales, it is fair to say that expenditures for liquor in Canada are still approximately \$200,000,000. —The New Outlook.

A colored man got his nerve together and took a right in an airplane. As he climbed out of the ship on its return to the field, he turned to the pilot and said, "Guh, Ah has to thank you for both dem rides."

"What are you talking about?" said the aviator. "You only had one."

"No, suh," returned the passenger. "Ah had two—mah fust an' mah last."

Counsel: "Answer me a plain question. Were you or were you not bitten on the groin?"

Witness: "Anatomy ain't my strong point, but I know I couldn't sit down for a week."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, April 12th, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

The sacrament of the Lord's supper.

Groups and classes meet at their regular hours during the week.

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

Services Sunday next as follows:

Children's Service at 10 a.m.

Morning Service at 11 o'clock.

Chinese Patient (on telephone):

"Sir, what time you fixee tooth fo' me?"

Dr. Little: "Two-thirty all right."

Patient: "Yes, tooth hurty all right, but what time you fixee?"

Pat, while laying bricks, fell from the fourth story to the sidewalk. His friend Mike and a doctor ran to pick him up.

"He's dead," said the doctor sadly, whereupon Pat sat up and said, "I am a dead!"

Gently Mr. K pushed his friend back down. "Now you shut up, Pat," he said firmly. "This man's a doctor, and he knows best."

BLAIRMORE PUBLIC LIBRARY

New titles made available this week are:

DISMISSES LABEL SUIT WITH COSTS

OTTAWA, Ont., April 7.—The marriage of Miss Mildred Marian Bennett, only sister of Rt. Hon. R. B. Bennett, to Major William Duncan Hertridge, Canadian minister plenipotentiary to the United States, will be solemnized at 3:30 o'clock on Tuesday, April 14, at Chalmers church here.

Rev. Dr. John W. Woodside will officiate.

Invitations have been issued by the prime minister for a hotel reception to be held immediately following the ceremony and both the service and reception are planned to be of as quiet a nature as possible.

The couple will leave for New York following the reception and will sail from there on Thursday for England.

Major Hertridge will appear in several cases before the privy council. Major Hertridge and his bride will also visit Denmark and probably other parts of the continent, returning to Ottawa some time in May.

Major Hertridge, recently appointed Canadian minister to Washington, takes over his duties there some time during the summer.

His Lordship stated to counsel for the plaintiff: "I am not impressed at all with your client because the evidence showed he did not co-operate in mitigating damages. I am quite convinced he was out for law. I don't encourage any such conduct."

A PUZZLE

A lady reader in Ayrshire asks me to solve a puzzle, which I gladly hasten to set before you—unsolved. It is a tombstone on which the inscription runs:

HERE LIE

Two grandmothers with their two granddaughters,

Two mothers with their two sons,

Two fathers with their two daughters,

Two husbands with their two wives,

Two maidens with their two brothers,

Yet only six persons are here.

What is the relationship?

I give it up. "Brother and sisters have I none" is quite enough for me. What can you make of it?

Local and General Items

Many an engagement ring nowadays is donated by the jeweler.

The many young friends of Tina McVey will regret to learn that she has been quite ill during the week.

Some papers refer to the recent anti-beerhall petition as a vexing matter. No other term should be applied to it.

J. B. Harner and family will take up residence in the Rose house, until very recently occupied by P. Chardon and family.

S. McDowell, of the local telephone branch, was a visitor to Lethbridge on Tuesday, attending the funeral of the late George E. Scott.

M. Joyce and family, who for several years have resided at Corbin, B. C., have this week taken up residence at Coleman.

Miss Jean Kemp left last night's train for Boston, at which point she is to be married to John H. Rae, formerly of Blaimore.

In 1929 Russia purchased British goods to the value of \$34,940,000, while Britain purchased from Russia goods to the value of \$171,000,000.

An exchange remarks: Newspapers charge for engagement and wedding announcements; but if you get a divorce they publish all about it for nothing.

Young ladies in The Pass are objecting strongly to the class of hair-lard used by the sheiks. They are recommending seganku grease instead.

The proprietor of a local Chinese laundry appeared before court on Monday and was assessed a fine of \$50 and costs for an infraction of the liquor act.

The bride and groom arrived at a fashionable hotel on their honeymoon. The room they occupied was furnished with a pair of twin beds. Upon seeing them, the bride immediately began to cry, and the groom said: "Why, dear, what is the matter?" "Why," said the bride, looking at the twin beds, "I thought we were going to have a room all by ourselves."

THE MILLIONAIRE

I only have one pair of pants, While Jones has more than fifty; Suppose I had two pairs of pants, Would I be dressed more nifty? But if I had two pairs of pants, I'd have no place to wear them; I'd have to find some pantsless chap, And with my brother share them.

I only have one lonely vest, And that's both worn and seedy; Suppose I had another vest; Thank God, I'm not that needy. But if I owned that other vest, I'd worry where I'd place it, Until I found some vestless chap, Then round his shirt I'd lace it.

I only have one old sack coat, Style wouldn't call it snappy; Suppose I had two old sack coats, Would I be doubly happy? But if I owned two old sack coats, Like rich folks I would grumble; I'd have to find some coatless chap, To keep my spirit humble.

I only have one old gray cap, But friend was never truer; Suppose I had two old gray caps, Would skies smile any bluer? But if I had two old gray caps, I could not rest a minute, Until I found some capless chap, And push his head right in it.

I only have this suit of clothes, I'll grant that's not too many; Some day I know I'll meet a chap, Who isn't wearing any; Then I'm dead sure my only clothes, Will not be mine much longer; And I must walk like Adam did, When moral bonds were stronger.

—Theodore Thomas Sharpe

A negro went to his pastor and handed him a letter to the Lord which read: "Please send this old darkey \$50 right away." The pastor called together several of his friends and said: "This poor man has so much faith in the Lord we should not let him be disappointed. Let's make a collection for him." They contributed \$42, which was sent to the petitioner. Next day the negro gave the pastor another letter. This one ran: "Dear Lord, de wex' time you send dis darkey money, don't send it through no parson—send it to me direct."

Local and General Items

F. O. McKenna, solicitor, and Fred Pelletier, of Fincher Creek, were visitors to Blaimore on Tuesday.

The dance held at Hillcrest on Monday night for the benefit of the baseball club was most successful.

Miss Yull, of the Coleman teaching staff, spent the Easter vacation with Miss Lowery at Claresholm.

Stout Lady (to small boy)—"Can get through this gate to the park?" Boy—"I think so; a load of hay just went through."

Earl Kirkham, son of the late Mr. and Mrs. Thomas F. Kirkham and brother of the well known Lethbridge barrister, J. Stanley Kirkham, died at Lethbridge on Saturday last.

Teacher was giving a lesson on idiosyncrasies of Barch. "What is it?" she asked, "that comes in like a ion and goes out like a lamb?" Father, replied the smallest pupil.

The condition of "Sandy" Burnett, patient in the Hillcrest hospital, continues to improve. He is now able to sit up occasionally and is feeling quite cheerful.

Dr. J. Oliver was down from Cross-on over the week end. While here, he doctor, assisted by Dr. Rose, of Hillcrest, performed an operation for illeritis on "Gene," young son of Dr. and Mrs. Arthur J. Kelly.

W. J. Burns, former mayor of Coleman and for a great number of years connected with the McGillivray Creek Coal & Coke Co., leaves this week end for Edmonton, where he assumes the position of engineer in a commercial power plant.

Scientists are now breeding an odorless skunk, that will be mighty like a rose when completed. Folk are warned, however, not to be in a rush, or there are still quite a few skunks around that haven't had any cultural advantages.

Mr. Hordman McLeod left Coleman on Monday on the return trip to Winnipeg, going to Lethbridge by auto and thence by airplane. Coming from the "Peg" to Coleman, a similar trip was made in the remarkably short time of ten hours.

Owen Lennon, the Truro Bearcats' star left winger, who was named by the Toronto critics as the best player in the ice in the game with Hamilton, was been invited to play at Nelson, B.C., next winter, where his brother Tom resides.

Big Bill Thompson has been ousted from the mayoralty seat of Chicago by Anton J. Cermak, democrat, who plans to sweep the city of its notorious crime wave. Cermak is Bohemian born and secured a majority of round 200,000.

"It's wonderful how come men grow," the Duchess correspondent to the "Weeks Bulletin" last week stated. The Rev. Powell, D.D., filled the pulpit of the United Church on Sunday. "Now, remember, Thomas is but a small man."

Announcement was made Tuesday by Angus J. Morrison, secretary of District 18, U.M.W. of A., that an agreement on wages and working conditions had been signed by the Union with coal operators of the Drumheller field, and that a similar agreement had been reached with the Mountain Park Collieries.

Rev. W. T. and Mrs. Young, with their daughter and son, Olive and Anglin, arrived from Calgary on Monday to attend the musical festival and incidentally renew old acquaintances. Mr. Young is honorary president of the Crows' Nest Pass Festival and presided at the final session last night.

Mr. and Mrs. Gordon Savage, Mr. and Mrs. Ernie Anderson, and Goalie Dave Kemp and Dyke, of the Seattle hockey team, spent Saturday night in Blaimore. Messrs. Savage and Anderson and wives, continued on to Calgary by motor Sunday, while Dyke remained here till Tuesday, proceeding to Calgary that night.

Spirited, Flexible,
Quick-Handling

It is a real pleasure to drive a car so alert and capable in performance—so quick to respond to your fingers' touch—as the new Chevrolet Six. When you drive it you will discover agile acceleration... sustained speed... ample power... and smooth, silent operation under all conditions. You will be pleased with the larger 3-spoke wheel and the newly designed steering gear, which permit finger-tip control in turning and parking. Gear changing is exceptionally easy. And the big, four-wheel weatherproof brakes grip instantly and evenly, even on wet pavements.

Come for a Chevrolet ride. Know the thrill of driving this Six which is unusually economical to own, and easier than ever to buy.

PRICED FROM \$610 AT FACTORY, OSHAWA - TAXES EXTRA

CROWS' NEST PASS MOTORS
Blaimore, AlbertaAnother Firm
Out of Business

Just one of the news items which are appearing in papers quite too often these days throughout the Dominion. And what is the reason? There is only one, and that is lack of loyalty to home institutions and the lure of the flashing publicity of the large city establishments. Many citizens, while earning their wages and salaries in one place, nevertheless send a large proportion of this money out of the community for questionable bargains, thus depriving such community of that much necessary working capital.

Business Men
Do the Same

They have local firms who are able and ready to supply them with all their requirements, yet for the most trivial reason or excuse they will consent to extend this patronage to outside firms, thus helping to build up distant cities at the expense of their home town. They seem to forget that this money so sent out might otherwise have been largely returned to them by those with whom they should have left this business. Therefore, when in need of printed matter of any kind, whether farmer, business man or professional man, always extend first consideration to

CHAIRMAN OF WATERWORKS.

A PRAYER-HYMN

Dr. Campbell Morgan read to his big congregation in London a few Sundays ago the following prayer-hymn composed by a nineteen-year-old kitchen maid:

Lord of all pots and pans and things,
S'mine I've no time to be
A saint by doing lovely things,
Or watching late with Thee,
Or dreaming in the dawnlight,
Of storming heaven's gates.
Make me a saint by getting meals
and washing up the plates.

Although I must have Martha's
hands, I have a Mary mind.
And when I black the boots and
shoes, Thy sandals, Lord I
find.

I think of how they trod the earth,
what time I scrub the floor—
Accept this meditation, Lord,
haven't time for more.

Warm all the kitchen with Thy love,
and light it with Thy peace;
Forgive me all my worrying, make
all my grumbling cease.
Thou who didst love to give men
food, in room or by the sea,
Accept this service that I do—I do it
unto Thee.

An Old Friend

The stingy young man approached
the flame of his passion. "Did you
have any Christmas cards, Miss
Dearly?"

"Yes, several! And there was one
unsung that I thought particularly
artistic. I'm sure it came from you!"
"Really!" exclaimed the stingy one
delightedly. "What makes you think
that?"

"Why," replied the girl sweetly,
"because I sent it to you last Christmas!"

SEVENTH ANNUAL MUSICAL FESTIVAL IS BANNER SUCCESS

(Continued from Front Page)

Evans, Edna Evans and Kenneth Thornton, 77; second, Blairmore (Mamie Hamilton, George Kerr, Ronald Johnson and Lorraine Oliver), and Pincher Creek (John Fraser, Theodore Neuman, David Halton and Gordon Schoening), tied 70. Four first and four second prize medals.

Vocal, Special Event, open—A. B. McMurdo, Pincher Creek, 87; Mrs. M. Thomas, Hillcrest, 86; David Thomas, Hillcrest, 85; Mrs. J. Asbridge, Coleman, 81; Miss Jessie Bailey, Pincher Creek, 79; W. Owen, Fernie, 77. The Cecil Rees Memorial challenge cup.

The Blairmore Junior Musical Club Trophy for the highest marks obtained in any event, was awarded to Miss Evelyn Oliver, who attained 198 of a possible 200.

Presentation of prizes was made by Rev. W. T. Young, of Calgary, honor-

ary president of the Festival.

The spacious hall was packed to standing room each of the three nights. The chairman on Monday night was Rev. Father Harrington, on Tuesday night, Mayor Allison, of Pincher Creek, and last night, Rev. W. T. Young.

Here and There

Commercial fruit production in Canada in 1930 had a value of \$19,224,750. Apples accounted for \$10,535,940 of that total.

For the year ended May 31, 1930, a total of \$2,057,378 was spent in Canada on cut blooms showing that Canadians still have a strong penchant for buying iris with flowers.

As a barometer of business conditions in Nova Scotia it may be stated that in 1930 there were 129 new companies incorporated as compared with 113 for the previous year.

A consignment of 120,000 pounds of dried hake from Disby has been shipped by way of Yarmouth to the de Janeiro Brazil and Nova Scotia exporters believe this may be the beginning of a steady trade in this line.

Over fifty per cent of the raw leaf tobacco used in the Canadian tobacco industry is now produced in Canada. Less than two per cent of the tobacco consumed in the Dominion is imported in manufactured form.

At end of February 7,521,589 bushels of wheat had entered Saint John over Canadian Pacific lines as compared with a movement of 2,559,477 bushels during the similar period of 1930.

Two Chinese babies lost the distinction of being the first infants born aboard Canadian Pacific liner Empress of Japan. The babies occurred on a recent voyage and were reported on arrival of the ship at Vancouver.

Public rooms on the Empress of Britain which will arrive at Quebec on its maiden voyage June 2, all bear distinctive names. The dining saloon will be known as "Salle Jean Jacques Cartier," the ball room as the "Empress Room," and the lounge as "Majesty."

Total estimated revenues of the province of New Brunswick for 1931 is set at \$5,202,821 according to the financial estimates presented to the provincial legislature recently by the provincial secretary-treasurer in his sixth budget speech.

When H. R. H. the Prince of Wales opens the British Trade Fair at Buenos Aires, March 14, his address will be the first made out Canada by the combined efforts of the Canadian Pacific and Canadian National Companies.

Inauguration of air service between Saint John and Halifax occurred recently when a Fairchild plane of the Canadian Air Lines left the New Brunswick city with passengers and express for the Nova Scotia metropolis. The trip of 125 miles was made in an hour and a half.

"In most parts of western Canada if you ask a business man as to general conditions in his locality, the answer you receive is a surprise. The number of business men who are better than people in the east seem to think and that seems to be the case in many respects. The summary impressions of his countrymen are given by E. W. Davis, a business man and president of the Canadian Pacific Railway."

Canada will have a large and attractive exhibit at the Buenos Aires Exhibition, March 14 to April 27. Canadian manufacturers will also be exhibiting their products in the Canadian section.

Hotel accommodation in the Pacific Provinces, according to the latest computation, is arrived at as follows: In Manitoba, 235 hotels; in Saskatchewan, 400; and in Alberta, 419.

Oil production in Alberta is decidedly on the upgrade, according to provincial government figures recently compiled. Total output in 1930 was 1,432,844 barrels compared with 999,152 in 1929.

Placement of 1,600,000 salmon fry and 1,000,000 trout has been made throughout different sections of Nova Scotia, a generous percentage of which went to the brooks and streams of Annapolis Valley.

Life, fire, accident and other insurance companies collected a total of \$10,366,626 in annual premiums on policies in force in Nova Scotia during the past fiscal year. This represents an increase of nearly \$1,000,000 over the previous year.

A combination of high speed at sea, special rail facilities at Quebec—including a tunnel under the famous battlefields—and special trains to New York and Montreal will shorten the time between London and most Canadian and United States cities by from one and a half to two days.

Here and There

The lobster season along the Nova Scotia coast is now in full swing. It is estimated that at least 400 fishermen are engaged in the industry, and that the number of traps will likely reach 200,000 or more.

The dining saloon of the new 42,500-ton Empress of Britain, known as "Salle Jacques Cartier," is the largest upland room on the five oceans. It was decorated by Frank Brangwyn, R.A.

As a tourist centre Cape Breton enjoyed one of the best seasons in its history during 1930. During the year 2,450 automobiles were handled across the Strait of Canso as compared with 2,057 for the previous year.

Vancouver will have the honor of welcoming a reigning monarch when King George VI and his consort, Queen Elizabeth, arrive there April 17, aboard Canadian Pacific liner Empress of Japan.

One of the largest and most courageous engineering undertakings on the continent is proceeding at the Athabasca canyon, Athabasca River, near Cochrane, Northern Ontario, where a plant is being built to generate 250,000 horse-power at a cost of over \$20,000,000.

"British steel for Canadian produce," is the slogan lettered on massive shafts unloaded at Saint John recently for shipment over Canadian Pacific Railway for use in hydro-electric development plants at Beauharnois, Quebec, and in the valley of the Ottawa River.

France should prove an excellent market for Canadian wheat since she has not committed herself to regulated purchases of wheat from Central European countries, said John A. Henry, French Minister to Canada, interviewed at the Windsor Station, Montreal, on his way to present credentials at Ottawa.

Relayed to twenty-two stations between Quebec City and Victoria by Canadian Pacific Telegraphs the company's first shipment of freight, opening the British Trade Fair in Buenos Aires, was clearly heard across the Dominion. The broadcast was brought to Canada direct from Buenos Aires by the short wave beam system of the Canadian Marconi Company.

What the Ice Age looked like, millions of years ago, is exactly pictured in the great Columbia ice-field, extending for hundreds of miles in the Rockies, and easily accessible from Lake Louise, said Walter L. Pyne in a recent lecture entitled, "On How back to the Ice Age." The field extends in the form of glaciers to three sides from which mighty rivers run to the Arctic Pacific and Atlantic oceans.

Champions of the Railway-Phono League and winners of the Beatty Trophy and the Thornton Cup, the Canadian Pacific Railway hockey team, were individually presented with gold watches by the league, the gift of E. W. Beatty, chairman and president of the system, in honor of their victory at a banquet at the Place Viger Hotel, Montreal, recently. The team will play the all time hockey championship of the Railway. (719)

The New York American says it has learned on excellent authority that Jack Sharkey will fight Primo Carnera, the vast Venetian, on June the 10th at Ebbets Field, providing that Carnera can gain reinstatement by the New York State Athletic Commission.

Here and There

There are 75,213 tractors in the United States, according to a recent estimate. Last year 8,591 tractors were sold in western Canada.

Barwell, Alberta, on the line between Lethbridge and Medicine Hat breaks the record for spring plowing and cultivation for 1931. Work on the land there is general and began March 25.

Motor tourist travel to New Brunswick from the United States was almost 50 per cent greater in 1930 than in the previous year, according to a report issued recently by the Canadian Customs Commissioner.

While the railroads of the continent are not responsible for deaths or injuries to travellers on their properties, they annually spend many thousands of dollars in preventive steps and educational campaigns to reduce this drain on the men and women of the south.

George H. Jones, head of the Canadian Pacific Supply Farm at Strathmore, Alberta, has been appointed cost manager of the Canadian Finance Corporation of Canada, Limited, with headquarters at Portage La Prairie. Jones is recognized as one of the outstanding livestock authorities in Canada.

Travelling Incognito, Their Majesties King and Queen of Spain will not appear at public receptions in Victoria or Vancouver when they arrive with their regal suite aboard the Empress of Japan en route to New York, April 17, the Consul-General for Spain announces.

A total of 1,066 moose and 873 deer were taken by hunters in the New Brunswick woods during the past hunting season, bringing the total for the past ten years to 12,914 moose and 60,352 deer, according to the report of the Game Warden of the Province.

Announcement has been made by the Canadian Pacific Railway company that shipments of freight at eastern points for points west, via Port McNicoll, will now be accepted subject to delay at Port McNicoll pending the first sailing. There will be five Canadian Pacific steamers on Great Lakes service during the coming season.

"Given a year of peace and China will become a dominant factor in enormous trade developments between Great Britain and Europe in the Far East," says Sir Ernest Thompson, prominent British cotton manufacturer, who returned from a British economic mission to China aboard the Empress of Canada recently.

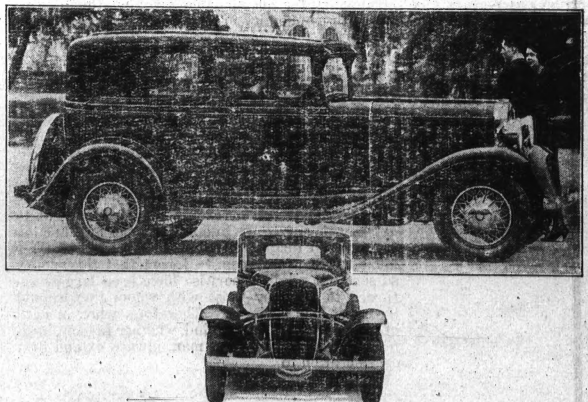

The majority of the directors of the Saskatchewan Poultry Pool Ltd., are women, and for several years have been conspicuous with the success. For the year to January 31, 1931, the Pool did a gross turnover of \$32,000 according to the report of President Bertha Holmes, an increase of 9 per cent over 1929 and 64 per cent over 1925. (726)

A woman arriving in this country, after a short visit abroad, was asked by the customs officials at the landing port: "Anything to declare, madam?" "No," she replied, sweetly, "Nothing."

"Then, madam," said the official, gravely, "am I to take it that the fur tail I see hanging under your coat is your own?"

New Lines of Beauty in 1931 Oldsmobile

The 1931 Oldsmobile, higher-powered and redesigned along with strikingly beautiful lines, has just been announced. The larger picture shows the handsome four-door sedan. Below is a front view revealing beautiful contours. The 1931 car contains many new mechanical refinements.

Here and There

In 1930 a total of 9,372,480 cases of vegetables, exclusive of soups, were packed in Canada, an increase of \$246,582 cases or 64.3 per cent over the 1929 pack.

The annual harvest of maple sugar and maple syrup is now under way. Last year's total cash value of these products in Canada was \$5,250,520. Most of this was from the province of Quebec.

"It's a long way to Mool River," crowded six lusty cockerels on the railway platform at Nanaimo recently. It was their first transfer on a 50-day journey from Vancouver Island to Mool River, N. A. S. South Africa.

In figures drawn from the provincial government statistics, it appears that motor accidents at level crossings during 1930 total only 1,043 per cent of all automobile accidents occurring in the Province of Quebec in that year.

Vanishing cream as a material to improve the complexion of grain kernels will not be tolerated in competitive classes of the World's Grain Exhibition and Convention, which will be held in Regina in 1932, the Canadian Seed Growers Association announces.

About the end of April wheat harvesting will begin at the Canadian Government Experimental Farm at Ottawa—in greenhouses. These have been built to complete two years' research work in one year and as a result, "we are two years ahead in our work," said L. H. Newman, Dominion Cerealist, recently.

Installation by the Canadian Pacific Telegraphs of a new telegraph carrier system between Toronto and Windsor, increasing telegraph facilities by ten two-way channels, has recently been put in operation. It also provides Windsor and Walkerville with a direct circuit to Montreal over the new carrier system.

Marine history was made when members of the British Royal Academy were commissioned to decorate the interior of the Empress of Britain. 42,500-ton giant of the Canadian Pacific Atlantic fleet, which will make her maiden voyage from England to Quebec in May next—Sir John Lavery, Sir Charles Allom, Frank Brangwyn, W. Heath Robinson and Edmond Dulac were some of the artists.

Addressing the combined Board of Trade and Empire Clubs of Toronto recently, E. W. Beatty, chairman and president of the Canadian Pacific Railway, pointed out that the total tax bill of his railway from incorporation to 1929 had been \$105,813,941, while the total value of the original Government contribution to the railway in cash, land and equipment sections had been \$21,115,827.

The Strathmore Poultry Pool, operated by the Canadian Pacific Railway, won the first five places in the Saskatchewan Poultry Pool contest. The pool has 100 members, 300 cows; three-year-olds took first and third places, and 2-year-olds took first four places in the mature class. The pool also has a highest milk record of 75 lbs. per cow, issued by the Dominion Branch of the Dominion Department of Agriculture. (727)

The wife of a sailor handed the pastor of a church the following note: "Peter Bowers having gone to sea, his wife desires the prayers of his congregation for his safety."

The minister glanced over it hurriedly and announced: "Peter Bowers, having gone to see his wife, desires the prayers of the congregation for his safety."

A Water Drop

"TWENTY Thousand Leagues Under the Sea" is but of date. Scientists are going a pace never heard of before in the history of the world. They tell us that the temperature of the flame at the surface of the sun is four thousand Centigrade, that Sirius, the brightest star, sends out a temperature of eleven thousand, Vega, fourteen thousand, according to the astronomers' instruments. But man has outdone the stars and the sun. In his labs a million degrees is not unknown and forty million probable. Arthur Eddington made the statement recently that "forty million degrees is, perhaps, not beyond attainment." At Cavendish Laboratory, Eddington says, "Dr. Kapitza produces momentary magnetic fields in which the concentration of energy corresponds to about a million degrees Centigrade. If he should be able to raise this to forty million, I don't really think subatomic energy will come pouring out, but just to be on the safe side, I shall take care not to be too near the laboratory when the experiment is tried."

"There is enough energy in a drop of water," says Eddington, "to furnish two hundred horsepower for a year. Instead of pampering the appetites of our engines with coal or oil we shall induce them to work on a plain diet of subatomic energy."

Trucks and trains will disappear and a year's supply of fuel for a station—thirty grams of water—can be carried in a tea cup. Scientific research into the various problems with which the producers of crops have to deal is on the move at a rapid pace much along the same lines. Too many farmers, however, are clinging tenaciously to old traditional methods. Others are moving slowly but surely along the road of progress. All are anxious for better and more profitable methods in the selection of seed, the cultivation of the soil, the harvesting and the sale of the crop. For the purpose of making better and surer progress still large numbers of scientific agronomists and practical farmers from all over the world are arranging to meet in conference at Regina in 1932. It looks now as if this will be the means of giving to the agricultural industry the biggest boost ever.

Scientists have not yet been able to produce rain at a time when farmers think that crops require moisture. They have, however, discovered some wonderful things along this line. Dr. Compton, the 1927 Nobel Prize winner in physics, says that, "by observing the diameter of the halo round the moon, one can estimate the size of water drops which cause it. A shrinking halo means a growing drop and hence probable rain."

The "milk of human kindness" may not contain any "butterfat," but it is the only brand that does not curdle.

Manufacturers of chewing gum have a new sales appeal. A beauty specialist states that exercising the jaws has a tendency to check the development of a double chin.

LODGE DIRECTORY

Blairmore Lodge No. 68,
I. O. O. F.

Meets First and Third Tuesdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: T. McKay, N.G.; A. Thier, V.G.; A. De-coux, Recording Secretary.

Crowview Rebekah Lodge

No. 66, I. O. O. F.

Meets First and Third Thursdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: Sister Erickson, N.G.; Sister Fernon, V.G.; Sister Howe, R.S.; Sister Patterson, K.S.; Sister Fraser, Treas.

Livingstone Lodge No. 22

KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.O., A. Vejpravai; K. of R. & S., B. Sander.

BLAIRMORE LODGE NO. 15

B. P. O. ELKS

Meets Second and Fourth Fridays at 8 p.m. in the Masonic Hall. Visitors made welcome. W. W. Scott, Exalted Ruler; J. R. McLeod, Secretary.

WANTED—Hear from owner good farm for sale, cash price, particulars, D. F. Bush, Minneapolis, Minn.

CORBIN HAPPENINGS

Corbin experienced the deepest snowfall of the season this week. On Thursday morning there was one foot of fresh snow on the level.

Mrs. M. A. Murphy and son David, of Cowley, Alberta, paid a short visit to Mr. and Mrs. Lionel Peel over the week end.

Mr. A. Sheppard and children left by motor for the Edmonton district on Thursday morning.

M. Joyce returned early this week from a short visit to Trail.

The dance booked for here on April the 2nd by the Michel orchestra was unavoidably postponed, owing to the orchestra getting mired in the mud and landing here about midnight.

Mr. Alex. Almond who has been visiting with Mr. and Mrs. W. Almond, returned to Michel on Saturday last.

The Ladies' Guild are putting on a bridge drive and dance in the club hall on Friday, April 10th.

Among the students who returned to their homes here from Fernie for the Easter holidays are Miss May Parsons and Masters Bobbie Elliott, Tommy Ferryman, Roy Taylor and Billy Warabee.

Mr. and Mrs. Ed. Coates are receiving congratulations upon the birth of a son on Monday last.

Mr. and Mrs. M. Joyce and son Jimmy have left for Coleman, where they are taking up residence. Both Mr. and Mrs. Joyce have made a host of friends during their four years' stay in Corbin, all of whom join in wishing them the best of luck in their new home.

A son was born to Mr. and Mrs. Lionel V. M. Peel on Sunday, March 29th.

The ladies of the Rebekah lodge, who have been having a series of bridge games this winter, held their final contest on Wednesday afternoon. Bridge was played from 2 till 4, after which a dainty luncheon was served. The winners were: Mrs. F. Regier, first; Mrs. W. Almond, consolation.

Prizes for the series were won in the following order: Mrs. Bert Parsons, first; Mrs. Tom Collins, second; Mrs. D. Waddington, consolation.

The following pupils of the local school have passed Grade VIII: Elsie and North, Tom Crowder, Eva Erikson, Margaret Kukh, A. Gustafson, Gillie Irvine, Revie Walker, Charli Hays, Enis Ascecker, Doris Sartoris, Mamie Hamilton, Violett Galioti, Norman Davis, Harold Lund, Vera Lord, Sylvia Lund, Connie Carlingburn, Lucy Basille, Carol Christie, Irene Leskozy, Norman Picard, Arthur Hayes, June Smith, Gladys Began, Clifford Chappell, Edwin Peters, Jack Pratt, Eda Martini, Beatrice Cartwright, Noel Peters, George Snaad, Jack Scott and Henry Dencucha.

Good progress was made in 1930 in civil aviation in Canada, particularly in commercial flying. A total of 87,453 hours was flown, an increase of 7,667 hours over the flying time of registered aeroplanes in 1929.

An advance of about 800,000 in net tonnage handled at the port of Vancouver during 1930 is shown in the annual report of the Vancouver Merchant Exchange, tonnage in 1930 being 12,776,434 against 11,984,771 in 1929.

Latest reports on the output of the central electric stations in Canada states that in 1930 power generated from such stations totalled 17,828,121 thousands of kilowatt hours, an increase of 195,245 thousands of K.W. hours over 1929.

When the new 42,500-ton Empress of Britain, Canadian Pacific Atlantic flagship, goes on a world cruise, she will break at least 29 records. Except for Southampton and New York she will be the largest vessel ever to enter world cruise ports.

Prediction of a favorable year for the fruit growers of the Annapolis Valley is already being made for 1931. Dr. Blair, superintendent of the Government Experimental Farm, Kentville, N. S., announces there is every indication of an excellent crop, adding that fruit buds had formed unusually well and were plentiful.

Statistics gathered from cities and towns having a population of 4,000 and over show that in 1928 such centres with a total population of 3,559,703 the number of police officers employed was 5,694, or one officer to every 671 persons. As an instance of their efficiency it is reported that of the 11,160 automobiles stolen in the year 1929, all but 19 were recovered.

While industry and commerce are preparing their plans and methods for low-cost operation and quality service in the coming contest for home and export markets, our railway system, a primary implement of these occupations, are cramped in that respect by heavily to accumulate reserves in fat years as did other corporations, according to resolutions adopted at the annual meeting of the Railway Business Association.

SCHOOL ACT CHANGES TO IMPROVE SYSTEM

EDMONTON, April 10.—Substantial improvement in the administration of the Alberta educational system will be made possible, in the opinion of Hon. Perren Baker, by the new legislation just passed, amending, consolidating and re-arranging the School Act. The changes involved go into effect at once.

Uniform policy in regard to voting for all school trustee elections is provided for, and henceforth "elector" will be the term used instead of "occupant" or "resident ratepayer."

Only proprietary electors, the owners of assessable property, may vote on money by-law. In all school elections, the voting is to be done with figures instead of "X."

Easter week will in future be a holiday time for all school districts, but in cases where the board and the teacher mutually agree to teach on such days, they shall be recognized as legal teaching days. Additional holidays, other than the recognized statutory days, will not be permitted in excess of one in each month.

No person may on any school premises canvass a teacher or offer to sell any merchandise.

Important provisions are made in regard to contract rights between boards and teachers. Letters sent to teachers by secretaries or chairman of boards, engaging their services, are binding. Boards have the month of June in which to decide whether or not a teacher shall be continued, and teachers have June and July in which to decide whether or not to stay. Outside of those periods no notices of termination are to be given by either party without the approval of the inspector being previously obtained.

A clause in the trustee-teacher agreement providing that there shall be no thirty-day notice of termination of contract until the board has held a meeting has been cancelled.

COWLEY HAPPENINGS

A subscription contest was held here on Saturday afternoon by C. J. Bundy, when prizes were won by Edith Murphy, first; Gordon Swart, second; and Sylvia Murphy, third.

Mrs. E. S. Easterbrook and son Cyril, of Calgary, are visiting in the district, renewing old acquaintances.

Irene Wells, of Bellevue, returned home on Tuesday, after spending several days with her aunt and uncle, Mr. and Mrs. Robert Littleton.

Mrs. Le'gh and Verduin were down from Calgary to attend the Crows' Nest Pass Musical Festival.

With several of the children taking part, Cowley was well represented at the Crows' Nest Pass Musical Festival at Blairmore this week.

THE Spirit of Spring-
time is blowing in the breezes, awakening the world anew to the wonders that only Nature can create; awakening anew the appreciation of fine tastes o that true, full flavor, 'ne beverages always have.

Where West Leads The East

General recognition is accorded to the fact that the West leads the East in grain and livestock production. It is known that the Western Provinces have a greater railway mileage per capita than the older settled provinces. It is an established and recognized fact that there are more telephones per capita in the West than in the East. It is not so well known that the West leads the East by a wide margin in the field of aviation. Yet such is the case as disclosed by the first annual report of Canadian Airways Limited, recently issued.

According to the report of this company, which is an amalgamation of all the large aviation companies in the Dominion, and in which the Canadian Pacific and Canadian National Railways are now largely interested, the amount of air business done in the West far outstrips the volume of Eastern business, and that operating conditions in the West are more favorable with the result that there is less non-productive flying; and consequently greater profits here than in the East.

The figures given in this report will prove most illuminating and interesting to western people. They cover twelve months operation of the Eastern lines, and thirteen months operation of the Western lines. It is shown, for example, that the total mileage flown in the East was 754,199 miles, as compared with 1,215,925 miles in the West. Total flying hours in the East were 7,688, but with the Western total 13,137, or almost twice as great.

But it is when one comes to a consideration of the amount and value of the business transacted, and the efficiency in operation, that the ascendancy of the West over the East in flying is most strikingly illustrated. Mail matter carried over Eastern lines amounted to 136,450 pounds, while the corresponding figure for Western lines was 207,483 pounds. Freight and express carried on the mail planes in the East was greater than in the West, being 14,971 pounds as compared with only 307 pounds, but freight and express carried on other than mail planes tell an entirely different story and reveal the extent to which this form of transportation has been developed in the West. No less than 404,010 pounds of package freight and express was transported by air in the West, as against 82,151 pounds in the East. In other words, the East has not developed this department of air service, apart from the regular mail planes, to anything like the extent that has been done in the West.

In passenger traffic, both on mail planes and other aerial services, an even more surprising record has been established by the West, showing that our people are becoming air-minded. The number of passengers carried on mail planes in the East was 299, and in the West 3,246; on planes other than mail planes, 1,447 Eastern people travelled by the air route, while in the West 8,508 chose the same method. Considering the much larger population of the East that fact, 7,054 Western passengers travelled by air as compared with 1,746 in the East speaks eloquently for this Western country.

This Western predominance in the air has no doubt partly accounted for the fact that the West is now regarded as an ideal country for flying operations, and also because of the further fact that distances between points to be reached are much greater in the West than in the East. That the West is well adapted to flying is demonstrated by the figures of mail efficiency contained in the report under review in this article. Out of a scheduled or possible mileage in Eastern Canada of 677,034 miles, only 558,264 miles were actually flown, leaving a lost mileage of 118,770, or only 82.4 per cent of efficiency. In the West, on the other hand, out of a scheduled or possible mileage of 764,578, productive mileage flown totalled no less than 708,544, leaving only 56,034 miles lost and representing an operating efficiency of 92.7 per cent.

The lighted airways of the West, making night flying practicable and safe, and the very fine municipal airports now in existence and being steadily improved, coupled with the excellence of flying conditions in general throughout the prairie country, provide an assurance that air transportation will more and more prove an important factor in the life of Western Canada, and in all probability a greater factor here than in the older sections of the Dominion.

World's Grain Show

Philippine Islands To Have Exhibit At Big Show To Be Held In Regina

The Philippine Islands are to exhibit at the forthcoming World's Grain Exhibition and Conference at Regina, in the summer of 1922, both in the competitive classes and in the educational exhibit section. The unit in charge of these displays will be the College of Agriculture, of the University of the Philippines, and Dr. B. M. Gonzalez, dean of the college, and Prof. N. B. Mondolia, of the Department of Agronomy, supervising.

PAINS

No matter how severe, you can always get immediate relief!

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the health, harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN

Expect Heavy Exports Of Canadian Cattle

Greatly Increased Market In Old Country Foretold

Cattle exporters and those in close touch with the cattle-raising industry in Ontario and the West, estimate that at least between 15,000 and 20,000 head of cattle will be exported to Britain this summer.

Some exporters think Canada will have much more than 20,000 head to export, one estimating as high as 100,000, but in view of the heavy domestic consumption this seems to be generally considered improbable. In 1921, this country shipped 110,568 head to Britain, but since then the shipments dropped off steadily to very small proportions. The British embargo against Canadian cattle was lifted in 1923.

In 1932 it will be possible to ship cattle from the port of Churchill and many supporters of that port think this will greatly lower the costs for cattle on the prairies.

Editor—What do you mean when you write, "The statement is semi-official?"

Report—Mrs. Gibson, wouldn't talk, so I got the story from her husband!

And the relatively small number of railway wrecks may be due to the fact that the engineers never hug the stream.

Canada Well Advertised

Descriptive Booklet Was Distributed At Buenos Aires Exhibition

Canada was well advertised at the Buenos Aires exhibition in the Argentine Republic, fifty thousand copies of an artistically-designed booklet descriptive of this country having been sent to the exhibition for distribution. The booklet is written in Spanish and so is the wording on a series of beautiful pictorial booklets that were distributed with it.

The publicity branch of the Department of Trade and Commerce produced the booklet, which is of a quality reflecting credit upon the publicity director, H. E. M. Chisholm. The author does not forget to tell his South American readers that Canadians invented the telephone, originated the idea of standard time, built the first submarine telegraph, made the first electric stove, discovered insulin and did other remarkable things. Many of our own citizens would profit from reading what the booklet has to say about our form of government, our national resources and the characteristic features of the country.—Toronto Star.

Novel Christening

Cracked Ice Is Used To Christen Submarine That Will Cross Arctic Ocean

They used cracked ice to christen the "Nautilus," the reconditioned submarine in which Sir Hubert Wilkins plans to cross the Arctic Ocean this summer.

The cracked ice was contained in a small silver barrel perched on the prow of the vessel. Lady Wilkins yanked a string, and the barrel discharged its eminently symbolical contents—symbolic because the "Nautilus" will attempt to cross the top of the world under ice floes, coming up now and again for air and observations.

Acids In Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of all cases of indigestion, trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the "Nautilus" symptoms which every stomach sufferer knows.

Artificial digestants are not needed in such cases. The stomach is simply being laid aside all digestive acids and indigestion, etc., from any cause. Simply lay aside all digestive acids and indigestion, etc., from any cause. Simply lay aside all digestive acids and indigestion, etc., from any cause.

Three Ingredients Needed

A blizzard calls for three ingredients, and must have all of them: cold, high wind, and a heavy snowfall, with the latter not so important as the first two because cold and a high wind to keep the snow in the air can create the impression of a heavy snowfall even when it is comparatively light.

The Family Physician.—The good doctor is always worth his fee. It is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises, and sprains. The presence of this remedy in the family medicine chest saves many a fee.

A Secret Expedition

A. Innes Taylor, only Canadian to accompany Eyrd on his Antarctic expedition, has arrived at Vancouver from White Horse, Yukon, to admit that he is soon to join another expedition of exploration which, however, instead of being to the south, as he declared he had been ordered to reveal. The expedition throughout, he stated, is to be conducted in secrecy. Formerly a member of the R.C.M.P., he had charge of all the huskies by Eyrd.

He who will learn of none but himself hath a fool for a master.

Australia's apple crop this year is estimated at 7,000,000 bushels.

Canadian Schoolboys Are Good Marksmen

Win King's Trophy In Empire Competition Twice In Succession

Canada's schoolboy marksmen for the second time in succession have won the King's trophy in the Empire competition held under the auspices of the National Rifle Association. The Canadian lads showed marked superiority over all other competitors with a record score of 68.96 points.

In second place was South Africa with 63.85, while Britain was third with 63.85.

Fourth place was taken by New Zealand with a score of 63.16. With 380, Canada also netted the biggest bag of silver and bronze medals awarded for individual scores of 97 and over. South Africa came next with 109 while Britain scored 68.

The Dominion also monopolized the first three places in the shoot for the Junior Imperial Challenge Shield, and Calgary public schools third with 65.4. First and second were won by the east.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted. It was heartbreak until the happy thought struck me to dye them. I just dyed them a deeper green, and as I used Diamond Dyes they look good as new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful color—symbolic because the 'Nautilus' will attempt to cross the top of the world under ice floes, coming up now and again for air and observations. Mrs. J. P. T., Montreal.

Recipes For This Week

(By Betty Barclay)

ORANGE SPONGE CAKE

- 2 egg yolks.
- 4 tablespoons orange juice.
- 1/4 tablespoon lemon juice.
- 1/2 cup sugar.
- 1/2 teaspoon grated orange rind.
- 2 egg whites.
- 1 cup flour.
- 1/2 teaspoon soda.

Beat egg yolks with orange and lemon juice until thick and yellow; add sugar and sifted flour and add, gradually, to egg yolks; add stiffly-beaten egg whites, and cut and fold in flour, sifted four times with a sieve. Pour into a buttered and floured cake pan, and bake in a moderate oven about forty minutes.

COTTAGE CHEESE PIE

Line a deep pie plate with pie crust and add the following mixed together in the order given:
 3 well-beaten eggs.
 1 cup cottage cheese.
 1 cup shredded coconut.
 1 tablespoon sugar.
 1 teaspoon nutmeg.
 2 cups milk or enough to fill the pie plate.
 Bake as you would custard pie, being careful to reduce the heat to insure a firm consistency.

Grading Canadian Potatoes

The Root Vegetables Act, of Canada provides that potatoes must be put up by grade—Canada No. 1; Canada No. 2; Canada No. 3, and Canada Fancy—and that on each bag, barrel or other container must be marked, by tag or stencil, the initials of the christian name and full surname and address of the person, firm or corporation offering the potatoes for sale.

With so thorough a preparation at hand as Miller's Worm Powders, the mother who suffers from children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a mercurial act to rid of these destructive parasites, especially when it can be done without difficulty.

Just As Dangerous

Mother was poking about in the shrubs when she suddenly called out: "Look, Junior! Here's a little green snake!"

"You better look out," cautioned Junior. "It may be just as dangerous as a ripe one."

Ceases Publication

After 103 years of publication, the Athenaeum Magazine is disappearing from London news-stands through a merger with the New Statesman and Nation. The new magazine will be committed to no political policy, its sponsors say.

No man is wise enough to ignore the things his wife can teach him.

The Issue In India

Retired Official Gives His Opinion Of The Situation

"I have been in India 46 years and cannot help thinking that most of our troubles are due to the fact that in the past, politicians failed to think out the results of their actions to their logical conclusion," said Field Marshal Sir William Birdwood, who has just retired as commander-in-chief in India, in a speech to the London Devonian Society, England.

"I hope that whatever government is in power will remember that the masses of India are illiterate and inarticulate and will see that the safeguards we read about will be real safeguards; and that those people will not be handed over to the intelligentsia who speak in the name of India without having the same affection for the cultivators of the land as our English people have," the field-marshal added.

Asthma Can Be Cured. Its suffering is as needless as it is terrible to endure. After its many years of refusal of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

A Beggar's Blessing

"You don't happen to have a cup of nice hot coffee on you, Mister?" asked a pan-handler of a citizen on King Street, Toronto, and the expression of gratitude when the whereabouts of the coffee was ascertained was equally original. "God bless your specs," he said heartily, "and keep 'em recolored."

Alberta Egg Production

Alberta shipped 115 cars of eggs eastward in 1920, according to R. H. Ensmore, federal egg inspector, who added that the months of January and February this year had apparently been record ones in egg production.

A Herd of Starving Deer in Alaska

was recently fed by bales of hay dropped from airplanes, very much like manna from above.

Smothering and Fainting Spells

Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a daze, unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully."

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

GRAIN FUTURES SALES WILL BE INVESTIGATED

Ottawa, Ont.—Does the sale of grain futures operate to the detriment of the producer? This was the "single, single question" which Sir Josiah Stamp, and his colleagues will be asked to determine, Premier Bennett announced in the House of Commons. Sir Josiah, eminent British economist, consented to act as chairman of the commission to conduct this inquiry, at considerable inconvenience to himself.

The government had taken the view that there had been some sharp differences of opinion on this continent and in this country as to the desirability of maintaining markets for the sale of futures in Canada, that it was thought best to secure the services of some one entirely removed from the scene of these conflicts of opinion, Mr. Bennett declared. Hence Sir Josiah had been asked to head the inquiry and had consented.

Two other commissioners will complete the board, one selected by the governments of the prairie provinces and the other to represent the grain exchanges. They will be selected very soon.

The commission will, in all probability, hold open hearings in Winnipeg, and possibly in other centres in the west. Hon. Robert Weir, Minister of Agriculture, stated. The minister explained that the commission would be given a free hand but as it was desirable to get all the information possible and also desirous to hear representatives of all interests affected, open hearings would not doubt be decided upon as the most expedient. The government was desirous that "anyone" who could throw any light on the problem should be heard.

Expectation is that the investigation will be completed and the report made public in time to guide in the marketing of the next crop. Mr. Weir viewed with favor the international wheat conference to be held in London, England, in May. "All the information we can get on the subject is to the good," he said.

Counsel will be selected to represent the government, the grain exchanges and the producers, according to present plans.

Immigration Restricted

Government Policy Has Helped To Solve Unemployment Problem

Ottawa, Ont.—The government's policy of restricted immigration has materially helped to solve the unemployment problem in the last six months, and has reduced the number of arrivals of new citizens by 53 per cent. over the corresponding period of the previous year, according to Hon. W. A. Gordon, Minister of Immigration and Colonization.

He also pointed out that in the first 11 months of the last fiscal year, 28,728 young Canadian men and women who were residents of the United States, had returned to Canada.

For 11 months of the fiscal year which ended Tuesday, March 31st, 85,810 persons entered the Dominion as compared with 148,712 in the corresponding period of the previous year.

Total number of jobs men placed on farms by the Land Settlement branch of the immigration department numbers 2,300 to the end of February, 1931.

Will Seek Information

Members Of Co-Operative Wholesale Society Of Great Britain Are Here As Observers

Toronto, Ont.—"We are merely in Canada as observers and have no opinions," said George W. Brooks, a director of the Co-Operative Wholesale Society of Great Britain, when interviewed by the press.

However, he provided details of the organization, which comprises 1,141 affiliated societies and 4,020,332 co-operative customers. The company's sales in 1924—its first year—totalled \$500,000, while in the year ending July, 1930, they amounted to \$550,000. Butter holds first place in turnover, sales totalling \$32,500,000, and is followed by flour, sugar, bacon and hams, and tea.

Overseas trade for the year 1930 amounted to \$4,500,000. In addition to this the organization purchased \$4,000,000 worth of grain from the Canadian Wheat Pool.

There have been reports that the society contemplated establishing a branch in Canada.

Winners In Writing Contest

Novel By Calgary Girl Carried Off Third Prize

Montreal.—A Dominion-wide contest in novel writing came to an end with the announcement that Raymond Knisk of Port Dover, Ontario, has been awarded first prize of \$2,500 for his winning manuscript. The book will be published by the sponsors of the contest, an Ottawa publishing company.

Second prize of \$1,500 went to Marcus Adams, of Toronto, and Ella B. Wallis, of Calgary, won the third prize of \$1,000. All three books will be published in the near future.

Several manuscripts were thought to be of such merit that the contest judges recommended that they be published also. Included in this latter group were books by Laura Goodman Silverman, Port Arthur, Ontario; Francis Owen, Edmonton; and Isabel R. Henderson, Winnipeg.

The object of the contest was to demonstrate to Canadian readers that 100 per cent. Canadian books rank as high as those published anywhere, and that there are many potential authors in the Dominion.

U.S. Airplane Crash

Knute Rockne, Notre Dame Football Coach, Is Killed

Bazaar, Kas.—Knute Rockne, Notre Dame football coach, plunged to his death with five fellow-passengers and two pilots on a Transcontinental and Western Air Inc. air liner in the mid-Kansas grazing country near here.

The plane California-bound from Kansas City, crashed on a farm, killing all eight occupants instantly. Witnesses said the craft, flying through clouds and fog, lost a wing in a loop and hurtled to the ground like a crippled bird.

The body of Rockne was identified by W. L. White, son of William Allen White, of the Emporia Gazette. The famous coach boarded the plane just before its departure from Kansas City, in mist and rain, at 9:15 a.m. He was bound for Hollywood to complete arrangements for making talking pictures.

Was Secretary To Royalty

Lord Stanfordham Passes Away At Advanced Age

London, England.—Lord Stanfordham, secretary to royalty for the past 50 years and said to have possessed more state secrets than any other man, died recently. He was 81 years old.

Born Arthur Bigge, the son of a country vicar, Lord Stanfordham was private secretary to Queen Victoria and at the time of his death was private secretary to the King. He was often referred to as "the man behind the throne."

On March 11, Lord Stanfordham underwent an operation but this resulted in little improvement in his condition.

The private secretary is survived by two daughters, the Hon. Mrs. Victoria Eugenie Adams, and the Hon. Margaret Bigge. Lady Stanfordham died in 1922.

Appointed Lieut.-Governor

Lt.-Col. Munroe Receives Appointment For Saskatchewan

Ottawa, Ont.—Lt.-Col. Hugh Edwin Munroe, M.D., O.B.E., of Saskatoon, has been appointed Lieutenant-Governor of the province of Saskatchewan. Announcement of the appointment was made by Premier R. B. Bennett. He succeeds Hon. H. W. Newlands. Dr. Munroe is one of the "old timers" of the North West Territories and a prominent medical practitioner of Saskatoon. He has a distinguished war record.

Mr. Newlands retired from office on December 31, 1930. At that time Sir Frederick Haultain was appointed administrator of the province. Because of illness of Sir Frederick, an acting administrator was named, Mr. Justice J. T. Brown, of the Saskatchewan Court of King's Bench, now holding this post.

Would Replace U.S. Grain

Ontario's Grain Requirements May Be Supplied From West

Toronto, Ont.—Western Canada grains will replace those imported from the United States for use in Ontario if legislation is passed next year, following investigation now being made by the Department of Agriculture, under Col. Thomas Kennedy. The expected legislation will probably bind grain pools, elevators and feeders of the province in a co-operative arrangement.

LAY PLANS FOR MARKETING OF THE WHEAT CROP

Rome, Italy.—The first steps were taken towards the orderly marketing of the world's next wheat crop. Representatives of Canada, the Argentine, Australia, Bulgaria, Hungary, India, Poland, Rumania, the Soviet Union and Yugo-Slavia met to discuss preliminaries to the summoning of a formal conference where, it is hoped, a definite agreement will be reached for the sale of the 1931-32 crop.

It was upon the motion of Hon. G. Howard Ferguson, Canada's high commissioner in London, England, and the Dominion's chief delegate at the conference, that the production committee adopted the suggestion of a later conference to deal with marketing the crop which is to come. Mr. Ferguson's motion was that "that this conference, recognizing the importance of orderly marketing of the export surpluses of wheat and being convinced the present low price of wheat on the world's markets is a serious factor in the present economic depression, is of the opinion that it is desirable that delegates of countries exporting wheat should meet together as soon as possible to organize on an international basis the exportation of the crop of the year 1931-32."

The motion concluded by suggesting that the United States also be invited to take part in the discussion. One suggestion is that the deliberations should be held in Canada early next summer.

The proposed conference covers a broader field than was originally suggested. As the work of the present wheat conference has proceeded so many divisions of opinion have been revealed that anything like a general agreement among the 46 nations represented appears to be highly improbable. The rift between the over-seas countries and the European wheat-exporting countries seems to be wide.

The Danubian countries again sought tariff preferences in Europe for their wheat. But to this serious objection was again made and proposals involving rationing of production met with like objections. The overseas exporting countries disapproved orderly marketing apart from the conference proper and encountered so much success that approaches were made to the Dominion countries. They agreed to join a conference to be held next year and the Soviet delegation did likewise, making their agreement, however, conditional on the approval of the Soviet Government.

Then came the formal motion in the wheat production committee by Canada's chief delegate. The committee approved the motion and representatives of all the producing countries concerned met to discuss preliminaries.

Will Visit Canada

Washington, D.C.—Sir Ronald Lindsay, the British ambassador will visit Canada during the latter part of April. It is expected Sir Ronald, paying his first semi-official visit to the Dominion, will leave Washington about April 28, to go on to Ottawa, Toronto and Montreal.

Seeking New Record

Netheraven, Wilshire, Eng.—Lieutenant-Commander Glen Kidston, with Lieutenant C. C. Jones, and a wireless operator took off from here March 31, in an attempt to set a new air record from England to Capetown, South Africa.

MINISTER TO CUBA

Sir John Joyce Broderick, newly appointed British minister to Cuba, photographed when he sailed from New York for England, where he will enjoy a short vacation before taking up his new duties. He was formerly attaché to the British embassy in Washington. He sailed March 14.—Associated Press Photo.

Reports Say Ottawa Plans Domestic Loan

To Cover Obligations Maturing Within Two and a Half Years

Ottawa, Ont.—While there are many rumors of government financing to provide for large maturities within the next few years, no decision as to the plan to be adopted has been reached. Canada paid off her \$25,000,000 maturity in New York, April 1, out of money raised last year. This loan was one of the first war loans, and was floated in 1916.

In respect to the very large obligations which will mature within the next two and a half years there has been no official pronouncement. These total more than a billion dollars. It is the general impression that the government proposes to utilize domestic resources and that a large loan will be floated in Canada. Premier Bennett, in his capacity of finance minister, has the matter in hand, and the policy of the government will be announced in due course.

Look For Better Prices

Believe Canadian Wheat Prices Due For a Rise Shortly

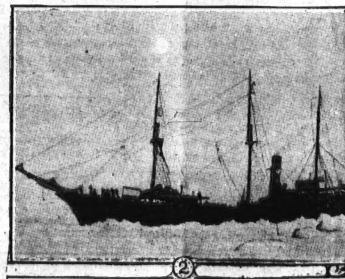

Toronto, Ont.—Belief that Canadian wheat prices are due for a rise shortly, was expressed by C. W. Peterson, of the Farm and Ranch Review, Calgary, Alberta. Europe, contended Mr. Peterson, who is visiting the city, could not continue to produce wheat at present prices and when they did advance their prices the Canadian price would also increase. United States, he thought, would soon disappear from the wheat market and would become purely an importing country.

Want Health Probe

Urge Public Health Inquiry In Province Of Manitoba

Winnipeg, Man.—Inquiry by a special select committee of the Manitoba legislature into matters of public health in the province was urged in the House recently by J. W. Pratt, independent member for Birtle. His probe request was supported by Dr. Murdoch MacKay, Liberal, Springfield, and J. B. Laughlin, Conservative, Killarney. The question of state medical aid would have to be considered by the government within a short time, Dr. MacKay believed.

SEALING VESSEL EXPLOSION

Twenty-one men are dead, and many injured as a result of the explosion supposedly of the powder compartments of the sealing ship "Viking" off the coast of Newfoundland. The photograph shows the "Viking." It was in the "Viking" that Fridtjof Nansen, Norwegian explorer, made his first journey north.

Ripped Fabric Caused Dirigible Disaster

Commission Gives Report On Crash Of R-101

London, England.—The disaster to the dirigible, R-101, which stunned the world when it came down in flames on a hillside near Beauvais, France, last October, killing 48 men, has been attributed to mechanical causes, and not to human failure. The report of the Simon Commission, which made a long study of the disaster, and just made public, attributed the disaster mainly to "a substantial loss of gas in very bumpy weather."

The report considered that it was probable that the forepart of the ship's envelope was ripped. "Something of this sort happened on a previous occasion and no amount of care could assure that it would not happen again," the report said, emphasizing the possibility of mechanical failure in dirigibles as at present constructed.

The commission refused to take a position one way or another regarding the effects of the tragedy on the future of lighter-than-air navigation.

WILL MAINTAIN CLOSE CHECK ON EXPENDITURES

Ottawa, Ont.—"Every department must live within its appropriations; if not, then some gentlemen are going to lose their positions," declared the prime minister in the House of Commons. The House was in committee of supply considering supplementary estimates and had under examination an appropriation amounting to \$505,510.46 to cover unprovided items 1929-1930, as per auditor-general's report. The item finally passed.

Mr. Bennett traced the growth of this annual amount, and asserted that if parliamentary control over appropriations was to be maintained, such discipline must be applied or the whole system would be wrecked. The amounts covered by the item had already been paid, and all that was being asked was merely to legalize the expenditures and begin the new fiscal year on April 1 with a clean sheet.

"I agree with the prime minister as to the desirability of exercising the closest possible control over public officials," declared Mr. Mackenzie King, leader of the opposition, but the prime minister should recall that he (Mr. Bennett) had had this for eight months of "the fiscal year, while the previous administration had had only four months. In view of that the responsibility for the over-expenditures lay with the government. The items, which had appeared regularly every year, were due, not to over-payment, but to unreasoned expenditures, which did not imply negligence on the part of anyone.

The question of whether the control of the auditor-general began before or after the payment of accounts was raised, the prime minister contending that this official's duty was to check the accuracy of the amounts and the authority for the expenditures. The money, he said, was paid before the auditor-general had clearance. Hon. Charles Stewart (Liberal, Edmonton West), declared that the prime minister would find it the most difficult thing in the world to close out accounts at the end of the fiscal year.

Mr. King recalled that in 1921-1922 the outgoing Conservative government had left an amount of \$2,005,630.86 to be accounted for in the corresponding item for that year. Compared with the sum now under consideration it could be seen, he said, how the last administration had exercised care and caution. The prime minister observed that special reasons had existed then, the magnitude of the sum being due to activities in connection with unemployment relief.

The situation was, said the prime minister, that the present government, in an endeavor to have all things squared away for the beginning of the fiscal year, was seeking authority for the payment of these accounts now instead of placing them in the next supplementary estimates for 1931-1932.

It was making an endeavor to see that hereafter there will be no over-expenditures by deputy ministers in the administration of their departments."

It might be that his conceptions of the obligations of a minister of finance may not be realized, continued Mr. Bennett, but he desired to make it clear that the appropriations passed by the House must not be exceeded.

WORLD WHEAT PARLEY TO BE HELD IN LONDON

Rome, Italy.—Canada House, at London, England, will be the scene of a conference between representatives of wheat exporting countries of the world. The conference will endeavor to reach agreements for the orderly marketing of the next crop. Hon. G. Howard Ferguson, Canadian High Commissioner, will preside.

The conference will meet on May 18, and its activities will be defined only by Mr. Ferguson's resolution, in which the high commissioner moved that the conference suggest the London meeting, at which delegates of countries exporting wheat should meet to organize an international basis, the exportation of next year's crop. The motion also suggested that the United States should be invited to take part in the discussion.

The conference got a free hand to tackle the problem only after a long and strenuous fight recently, in production committee of the world wheat conference. Endeavors were made to circumscribe the activities of the London conference, and to make it, in effect, responsible to the International Institute of Agriculture, under whose auspices the Rome wheat conference was called.

Exporting countries, with Canada leading, strongly opposed any idea of limitations. Mr. Ferguson held the exporters' conference was a distinct, independent organization. "We are subservient to nobody. We are not an adjunct of anybody. We are a distinct conference called to discuss a definite problem," he declared. "We shall welcome any information we can get from here that may help us to reach a successful solution, but we ask the committee not to pass any resolution that, instead of helping, will restrict us."

Earthquake Takes Heavy Toll

City Of Managua, In Nicaragua, Is In Ruins

S.S. City of Panama, in Corinth Harbor, Nicaragua.—The City of Managua is in ruins and there are hundreds of bodies, Hoke Palmer, United States Marine Corps aviator, said on his arrival here, after witnessing the results of the earthquake which devastated Managua. The city was still on fire when he left, he said.

Palmer had come over here from Managua to scrape up all the medical supplies he could get from this ship and from any other source where they were available.

"The whole town is in ruins," he said. "I don't think there's a building left standing, and there are hundreds of bodies buried."

"The heaviest toll taken was in the penitentiary, which collapsed, and looked as though it had been ground to powder."

"Fire roared through the wreckage, and there was a panic in no time. Martial law was declared immediately."

"The railroad is destroyed, and all the wires are down. You can't get any outside communication, 'planning to Corinth, and that possibly by radio."

"When my plane left Managua the marines had the rescue work well under way."

Wheat Stocks Less

Visible Wheat Supply Shows Big Decrease Over Last Year

Winnipeg, Man.—Decreasing supply of Canadian visible wheat was down at end of March to 183,489,397 bushels—more than 12,000,000 less than jammed elevators of North America a year ago. According to a report issued by E. A. Ursell, statistician to the Board of Grain Commissioners, stocks declined 2,135,966 bushels during the week ended March 27.

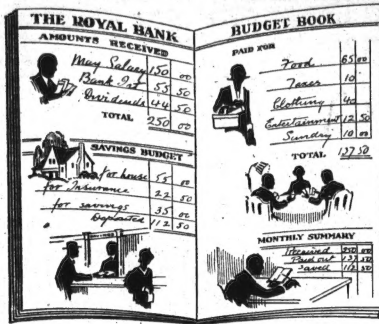

Ocean shipments of Canadian wheat fell off slightly, "planning to 2,908,430, as compared with 3,737,800 bushels for the previous week. Notably, the clearance decrease was at United States ports on the Atlantic, where shipments totalled only 97,000 bushels. From Canadian Pacific ports shipments were 1,477,761 bushels. Clearances from Canadian Atlantic ports were 531,669 bushels.

Money Awaits Court Ruling

London, England.—Sums of money which the post office department obtained by opening letters sent from England to Ireland for tickets in the Irish hospital sweepstakes, are being held up, pending a ruling by the British home office on what disposition to make of the currency. The sweepstakes is not legal here.

An attempt was recently made to break and enter the government liquor vendor store at Drumheller, which is in charge of W. A. Dempster, formerly of Blairmore. In quick time the police had the would-be robber under arrest. He has been sent up for trial.

The marriage of Mary Strathearn, eldest daughter of Mr. and Mrs. Robert Gray, of Blairmore and Vancouver, to Mr. John Louis Houbregs, son of Mr. and Mrs. Louis Houbregs, of Blairmore, and well known defense star, of the Seattle hockey team, will take place at Vancouver on Wednesday next.

Kenneth P. Stewart, who for several years has been principal of the "Pine Creek" schools, has accepted the position on the staff of Central School vacated by H. G. Long. Mr. Stewart is recognized to be one of the most successful teachers in the province and the school board is very fortunate to get him.—Lethbridge Herald twenty years ago.

There never was a better opportunity for making good use of back yards and vacant lots than is afforded this spring, and it is hoped everyone will avail themselves of this opportunity. If you haven't land enough of your own for the season, we feel sure that the town will co-operate with you and at least help you to grow your own vegetable requirements.

Maxwell Ethier, convicted murderer, died in his cell at the Montreal jail on Friday last from a heart attack, which was followed by paralysis, proving fatal. Ethier was to have hanged on June 19th for the murder of Lucien Levesque, a fellow employee of the Montreal Tramways, who was found in a clothes cupboard in Ethier's home with three bullet wounds in his body. Ethier attempted to commit suicide by shooting himself at the same time that Levesque was killed.

PIANO and PHONOGRAPH for sale cheap. Apply, The Enterprise.

LOST, a canvas truck cover in townsite on Wednesday. Please return to A. W. Robbins.

Wonder what William Hale Thompson, of Chicago, will do now for pastime or excitement?

Andrew Richard McWhite, a native of Newfoundland, has started on a 27,000-mile hike around the world.

Don't forget the meeting of the Blairmore Amateur Athletic Association to be held at 8 p.m. Friday, April 10th, in the parlor of the Cosmopolitan hotel.

FOR SALE—1929 model Whippet Six, rumble seat coupe, splendid condition, run about 6000 m.m.s. Special price for cash deal—F. M. THOMPSON CO.

Clayton King, wireless operator on the steamer Viking, lost recently off the coast of Newfoundland through an explosion, has had to have both legs amputated.

Dr. Charles Camuel, deputy minister of mines for the Dominion, has been honored by the B.T.A. Institute of Mining and Metallurgy by being awarded this year's gold medal, as being the most deserving.

We overheard the remark in the opera house on Monday night that "Jarowhiskey was hard to hear and hard to understand. His dialect was so foreign that even the Welsh could not understand it."

At a meeting held in the Elk's office Tuesday night, initial steps were taken to form a Soft Ball League in Blairmore. It is likely that an eight club league will function as a senior organization with a junior league to be formed later. Jas. Milne was elected president and E. A. Harper as secretary-treasurer, with Tom McKay as assistant. Representatives of the various teams will meet shortly to draw up the season's schedule.

"DANCE, FOOLS, DANCE!"

No doubt many of our readers have read the great story of the above title, which is being presented by talkie-movie at Cole's theatre, Bellevue, on Wednesday and Thursday, April 22nd and 23rd.

Space today will not permit our giving a full synopsis of the story and picture, but we hope next week to be able to give a review of it.

In the meantime, we ask you to look forward to this greatest of all great talkie-movies, which is packed full of thrills and romance. You're going to enjoy this picture. You're going to gasp at the flaming youths, the gorgeous costumes of Chicago's rich, the thrills of a girl in combat with the underworld. Joan Crawford in "Paid" kept audiences in thrills, but now this exquisite actress presents the greatest effort of her glorious screen career. Here Joan Crawford performs more thrilling than "Paid," more exotic than "Our Modern Maidens." She is the star you love.

NOTICE OF PREPARATION OF ASSESSMENT ROLL

TOWN OF BLAIRMORE ASSESSMENT ROLL 1931

NOTICE IS HEREBY GIVEN that the assessment roll of the Town of Blairmore for the year 1931, has been prepared and is now open for inspection at the office of the secretary-treasurer of the Town from ten o'clock in the forenoon to four o'clock in the afternoon on every day, which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the secretary-treasurer of the town.

Dated this 7th day of April, 1931.
 ARTHUR J. KELLY,
 Secretary-Treasurer.

Due to the establishment of divorce courts in Ontario, the work of the Senate divorce committee has been considerably reduced. The membership has been reduced from fifteen to nine members. The applications this year number forty-one, all from Quebec.

Newfoundland's premier welcomes the restrictions placed on migrants from the big island entering the United States. He is convinced that there are thousands of Newfoundlanders in that country who would be glad to come back home—if they had the price.
